

TESTED. TRUSTED. TOUGH.

**You Won't Find A Better Safety Solution For Your Facility
Than Wildeck® Safety Guarding Products.**

Whether it's protecting rack, shelving, machinery, production areas, or your most valuable asset — people; more facility and safety managers are specifying Wildeck because it's **tested, trusted, and TOUGH.**

Under test conditions, our Wilgard® Protective Railing System absorbed a 13,000 lb. load impact at 4 mph without failure. That's not only piece of mind — that's Wilgard, and it's available in a range of sizes and lengths to suit your application needs.

Protect your investment today. Call your local Wildeck representative to find out how Wildeck Guarding Products can help you protect what matters.
