

EFFICIENCY MATTERS

Say goodbye to wasted space and maximize your material flow with a MezzCrane™ System from Wildeck.

The MezzCrane™ is a hybrid system that combines all the strength and utility of a custom-designed Wildeck Mezzanine with the agility and flexibility of a 3-axis enclosed track bridge crane. It delivers the ultimate in material handling efficiency and flexibility for lean manufacturers, maintenance operations, and service shops.

Let your Wildeck representative help you lift, move, and store more material today with a custom designed MezzCrane™ system.
