Wildeck can increase efficiency...

Integrated Material Handling Systems

Pharmaceutical and Medical Supply research, manufacturing, and distribution facilities face the unique challenges of high-value products, secure environments, and concerns for health and safety. Properly designed facility layouts and reliable material handling systems can increase your profits and propel your operation ahead of the competition.

Optimize Operations

- ▶ Production and Manufacturing Areas
- ▶ Pre-Clean and Post-Clean Room Storage
- ▶ Supply, Shipping, and Dock Areas
- ▶ Inside Coolers
- ▶ Store Operations
- ▶ Areas with Air Equipment and Cooling Systems
- ▶ MRO – Maintenance Repair Operations

Call **800-325-6939** or e-mail info@wildeck.com to connect with a Wildeck representative today. To learn more, visit www.wildeck.com.

Leading companies have selected Wildeck to maximize productivity, increase safety, and minimize operational expenses.

Operations

- ▶ Improve Safety and Ergonomics
- ▶ Increase Efficiency and Process Throughput
- ▶ Interface Reliably and Seamlessly Throughout Your Operation

Storage and Handling

- ▶ Raw Materials and Equipment Components
- ▶ Research and Development Materials
- ▶ Packaged and Palletted Products
- ▶ Archives – Documentation and Paperwork

Customers

- ▶ Abbott Labs
- ▶ Alcon Manufacturing
- ▶ Alpharma
- ▶ Amgen
- ▶ Baxter Healthcare
- ▶ Bayer
- ▶ Berlex Laboratories
- ▶ Bristol-Myers Squibb
- ▶ Eli Lilly & Co
- ▶ Janssen-Ortho
- ▶ Johnson & Johnson
- ▶ McKesson
- ▶ Merck-Medco Omega
- ▶ Novartis Pharmaceuticals
- ▶ Pfizer Inc
- ▶ Procter & Gamble
- ▶ Roche Diagnostics Corp
- ▶ Schering-Plough
- ▶ Teva Pharmaceuticals USA
- ▶ Tyco Healthcare
- ▶ Wyeth-Ayerst Laboratories

Wildeck's Automated Lift integrates with conveyor system

STORING

Freestanding Mezzanines

- ▶ Increase the vertical storage capacity in unused areas of your facility
- ▶ Do not require the acquisition of new land
- ▶ Control HVAC costs
- ▶ Allow for dismantling and relocation with secure bolt-together connections
- ▶ Offer flexibility for an evolving floor plan
- ▶ Qualify for accelerated capital equipment depreciation
- ▶ Simplify facility expansion and growth

Wildeck® mezzanines improve the storage and flow of your raw materials and finished products.

Custom-designed crossovers with ship's ladders and railings allow workers to safely access production areas without stopping workflow.

LIFTING

Utilize Wildeck® Vertical Reciprocating Conveyors (VRCs) to safely move your supplies and finished products to upper level storage, manufacturing, or distribution areas. VRCs have small footprints and can be easily installed to access a mezzanine or the 2nd or 3rd levels of your operation. While a VRC functions like an elevator or a dumb-waiter, VRCs are for the safe transport of materials only. Riders are not permitted.

Specify a Wildeck VRC to improve workflow and the safe transport of bulk or palletted material.

Wildeck VRCs are manufactured in the USA and meet ANSI / ASME B20.1 safety standards for conveyors and applicable MHIA guidelines.

Wildeck's Delta™ Lift is easy to install and moves heavy, cumbersome, and awkward items to the next level.

A VRC easily integrates into an existing or new facility to optimize material movement.

GUARDING

Wildeck® Guarding Products can protect your facility investment and personnel from forklift impact. Under test conditions, our tested, trusted, and TOUGH Wilgard® Guard Rail System absorbed a 13,000 lb impact at 4 mph without failure. That's not only piece of mind – that's Wilgard.

Use Wildeck Guarding Products to Protect:

- ▶ Loading Zones
- ▶ Shelving Areas
- ▶ Pedestrian Walkways
- ▶ Around Equipment

Wildeck Manufactures a Full Line of Guarding Products:

- ▶ Wilgard® Guard Rail
- ▶ Rack Protectors
- ▶ Column Protectors
- ▶ Safety Gates
- ▶ Bollards
- ▶ Machine Guards

Wilgard® Guard Rail (right) and end-of-aisle rack protectors (below) can protect your facility, equipment, and people from moving vehicles and fork trucks.
