Self-Storage Solutions

**Increase the
Efficiency and
Profitability of Your
Self-Storage Facility**

Who is Wildeck?

Wildeck, Inc. is the largest manufacturer of Mezzanines, Vertical Reciprocating Conveyors (VRCs), and Safety Guarding Products in North America. Wildeck is the only company designing and manufacturing both Mezzanines and VRCs.

Wildeck has provided hundreds of quality VRCs for multi-story self-storage facilities nationwide.

Wildeck has a reputation throughout the material handling industry as a manufacturer of safe, reliable, and durable VRCs and the highest quality mezzanines, code-compliant stair systems, and safety guarding products.

Contact your Wildeck representative or visit www.wildeck.com to learn more about the self-storage facility solutions available from Wildeck.

When You Need The Best – Wildeck Is The One For You

Wildeck's Self-Storage Package sets the standard for **quality, reliability, and value** for material handling lifts. All products are manufactured to the highest possible standards to meet your needs for **safety, increased material protection, and reduced wear**. The Self-Storage Package includes:

- ArmorCar™ Carriage, the “Diamond Standard” of lift carriages
- EZ Pro™ Operator Station, the smart easy-to-use lift control station

A valued customer responds to Wildeck's Self-Storage Package in his multi-level self-storage facility:

“The VRC control is virtually ‘idiot-proof.’ A site manager can unlock it and train a user to safely operate it in a matter of minutes. The new ArmorCar™ Carriage is also well lit, which customers like. Adding a VRC that is both functional and looks good was very important. It gives our facility a competitive edge and cost a lot less than a large elevator.”

Wildeck's Self-Storage Package provides a powerful lift for safe and efficient movement of tenant property in a multi-story self-storage facility. Expect Wildeck® VRCs to raise performance and lower your costs.

Wildeck's ArmorCar™ Carriage with EZ Pro™ Operator Station

It's Safe.

The ArmorCar™ Carriage is **fully enclosed** to help prevent carriage jams and protect your tenants' belongings. The carriage includes a **recessed light** that turns on when an outside door or gate is open. This allows tenants to safely load and unload their belongings day or night.

It's Durable.

Wildeck's ArmorCar™ Carriage is **built to withstand** everyday wear and tear from the movement of tenants' belongings.

The **galvanized diamond plate floor and wall panels** never need painting and will maintain their appearance for years to come.

It's Smart.

Wildeck's EZ Pro™ Operator Station allows trained employees and tenants to **easily see**

how to operate the lift and check its status using the push-buttons and long life LED lights. No other manufacturer offers this level of control.

LIFTING

A Wildeck ArmorCar™ Vertical Reciprocating Conveyor (VRC) provides safe and effective movement of tenant materials to a second or third level. The ArmorCar™ self-storage VRC has been specifically designed for easy installation in new facilities and expansions to your existing operation.

Wildeck's intuitive EZ Pro™ Operator Station permits easy lift operation.

“The VRC makes it easy for our tenants to transfer their belongings to a second level unit, which is typically more economical to rent than one on the first floor. I would certainly recommend it (a VRC) to anyone constructing a multi-level facility.”

When the VRC is equipped with a roll-up door, it secures and protect tenant's materials during lift operation. Other carriage door options are available.

EFFICIENCY MATTERS

GUARDING

Install Wildeck's Safety Guarding Products to protect your tenants as well as your self-storage facility investment. Wildeck's Safety Guarding Products

include: guard rail, safety bollards, gates, railings, stairs, and safety ladders.

Safety bollards protect this doorway in a loading zone.

SAFETY MATTERS

STORING

Wildeck's easy-to-assemble, bolt-together mezzanine with stair or VRC access will help you gain additional rental storage space in new or existing facilities. Wildeck's Self-Storage Specialist can: measure your space, help you plan the design and layout, choose the right equipment, oversee delivery and installation, and assist you with any future needs.

Increase the rentable space in your facility with a Wildeck® mezzanine.

CAPACITY MATTERS
