## Maximize Your Material Flow with a MezzCrane™ System

The MezzCrane™ is a hybrid system that combines all the strength and utility of a custom-designed Wildeck Mezzanine with the agility and flexibility of a 3-axis enclosed track bridge crane from Gorbelt.

It delivers the ultimate in material handling efficiency and flexibility for lean manufacturers, maintenance operations, and service shops.

Available in five different configurations that can be customized to your needs, the MezzCrane™ provides a myriad of options to easily and safely lift and transfer materials within a work cell. It enables localized staging and storage of work-in-process or finished goods above or below the mezzanine.

Say goodbye to wasted space and inefficiency with a MezzCrane™ system that's tailored to your specific needs. Contact your local Wildeck representative today for a free assessment and MezzCrane™ proposal.

- ▶ Increase Efficiency... Move Material Easier and Quicker
